

# 1. School Mentor ERP

## Complete School Management Engine

School Mentor ERP is the core engine of the system, designed to manage all academic and administrative operations from one unified dashboard for principals and school management.

- 1 Complete academics management including lesson plans, scheme of studies, and question banks
- 2 Smart fee management with bank integration and real-time tracking
- 3 HR, payroll, attendance, and timetable automation
- 4 Performance analytics, reports, and centralized data control

# 2. School Mentor Mobile App

## Connected Learning for Every Stakeholder

Dedicated mobile apps for principals, teachers, and parents to stay connected with real-time updates and school activities anytime, anywhere.

- 1 Separate apps for Principal, Teacher, and Parent access
- 2 Instant notifications for attendance, homework, and fee updates
- 3 Easy assignment sharing, grading, and communication
- 4 Simple and user-friendly design for non-technical users

# 3. School Operational Manuals

## Standardized SOPs for School Excellence

Structured operational manuals covering academic and administrative processes to ensure consistency, professionalism, and quality across the institution.

- 1 Ready-to-use SOPs for academic and administrative operations
- 2 Guidelines for lesson planning, classroom management, and policies
- 3 Custom branding with school identity
- 4 Video tutorials and printable resources for easy implementation

# 4. Teacher Training Programs

## Continuous Professional Development

Monthly training sessions designed to improve teaching quality, school management, and overall staff performance through expert-led programs.

- 1 Monthly training sessions by experienced educators and trainers
- 2 Focus on pedagogy, classroom management, and student psychology
- 3 Training on technology integration in education
- 4 Continuous capacity building for teachers and school leadership

## 5. Mentor AI

### Smart Teaching Assistant for Schools

Mentor AI acts as a powerful assistant for teachers and principals, helping them create academic content instantly using intelligent automation.

- 1 Generate lesson plans, activities, and question banks in seconds
- 2 Scan books and convert content into structured teaching material
- 3 Based on Bloom's Taxonomy and modern academic standards
- 4 Direct integration with ERP and mobile apps for seamless workflow

## 6. Head Office Support

### Dedicated Support for Your School Growth

A complete support system backed by expert teams to ensure smooth operations, continuous improvement, and long-term success of your school.

- 1 Dedicated customer support and training assistance
- 2 Regular onboarding sessions and system guidance
- 3 Continuous product updates and improvements
- 4 Expert teams including educationists, tech, and management professionals
